**CITY OF SALEM**  
**BUSINESS LICENSES APPLICATION**  
**(REV. 6.1.02)**

**Instructions:** Chapter 88 of the City of Salem Municipal Code, a copy of which is attached hereto, requires all businesses to obtain a business license BEFORE they open, operate, use or occupy any premises within the City.

The definition of "Business" is very broad and includes any non-residential activity, including any retail, commercial, industrial, trade, profession, occupation, vocation, etc.

To obtain a Business License, the following steps must be complied with:

1. **Application Form.** Fill out the Business Licenses Application Form and submit the original to the Department of Inspections and Permits ("the Department") at the Municipal Building Annex 17 New Market Street, Salem, New Jersey 08079 (Phone number 856.935.5510) along with your check for \$15.00 made payable to "City of Salem".

If possible, PLEASE DROP OFF YOUR APPLICATION IN PERSON, so you can meet and discuss your Application with a representative of the Department.

Please note that each question on the Application must be answered and the Application must be fully complete or the Application will be rejected and no refund of fees will follow. If you do not have the information requested, please discuss this with the Department when you drop the Application off so they can attempt to assist you.

2. **Safety Inspection.** Before a license can be issued, the Department must inspect the premises where the proposed business is to be conducted to determine whether the same meets applicable City codes/regulations relating to minimum life safety standards. You must make an appointment for a date and time when you can meet the inspector at the premises for the inspection. There is a \$40.00 fee, payable in advance for the inspection. If the proposed premises passes the inspection a certificate of occupancy ("CO") will be issued. If it does not pass, no CO will be issued and no Business License will be issued unless all requirements are fulfilled and a re-inspection occurs.

Please note that neither the inspection nor the issuance of a CO is any guaranty that the premises is safe, free of defects, in good condition, not in need of repairs or upgrades, or structurally sound. The CO issuance merely means that the limited inspection revealed no obvious code violations which render the premises below the bare minimum requirements for human safety. The City will not be responsible based upon the issuance of a CO and accordingly the City strongly recommends that each applicant hire an architect, engineer or other qualified safety inspector or professional to conduct an inspection of the premises.

3. **Planning Board Review.** Before a License can be issued by the Department, you must appear before the City Planning Board and obtain a "waiver of site plan" AND/OR any

other variances, waivers, exceptions, permits or approvals, including actual site plan approval if the same is required, which are necessary to conduct the proposed business activity at the proposed location.

The Planning Board meets on the Thursday after the third Wednesday of each month at 6:30 p.m. at the Municipal Building located at 1 New Market Street, Salem, New Jersey 08079. The Planning Board's Secretary, who can be reached through the Department, in conjunction with the Board Chairperson, determines whether your application can be on the agenda for a particular meeting date. Whether or not you can be on the agenda for a particular meeting date depends on several variables, including whether all that is required for your proposal is a "waiver of site plan" or whether other relief is required. If other relief, including actual site plan approval, is required you will have to first comply with the notification and other requirements before the Planning Board can act on your application. Waiver of site plan may be granted by the Board at a public meeting, without specific notification by the applicant, without specific notification by the applicant, when the Board finds:

- a. The proposed use is clearly and specifically permitted in the zone, and therefore no use variance, dual use variance or ordinance interpretation is necessary.
- b. The proposed use shall be solely within an appropriate existing structure and no (new construction except interior renovations) will be involved, or the same will be de minimus;
- c. The proposed use will not affect existing circulation, drainage, building arrangement, landscaping, buffering, lighting and other considerations of site plan review;
- d. The proposed use will not have an adverse effect in relation to parking, noise, odor, trash or similar considerations;
- e. The existing facilities do not require upgraded or additional site improvements to accommodate the proposed use; AND
- f. The application to the Board, including all fees and other requirements thereof is complete in all respects and contains all of the information the Board needs to reach an informed decision; and there appears to be no cause to require specific public notice of the application for the waiver, nor is such notice legally required.

A waiver of site plan application to the Planning Board that is based on the foregoing criteria requires a non-refundable application fee of \$150.00. For such applications the Planning Board accepts a copy of the Business Licenses Application Form, however additional information or materials may be required by the Board. If the Planning Board grants the site plan waiver it must adopt a written memorializing resolution thereof; generally this will occur at the same meeting where the Board grants the waiver.

The Council shall then review the matter and may accept, reject, or modify the recommendations of the Hearing Officer based on the record before such Hearing Officer. In the event that the matter is not referred to a Hearing Officer and is heard by the Council, then the Council shall render a decision within 30 days of the conclusion of the hearing. Following the hearing, a decision shall be rendered, granting the appeal and issuing the license, either conditionally or unconditionally, or revoking or suspending the license, determining that the

license shall not be renewed or reissued for a defined period of time, or suspending or revoking the license unless the licensee pays a specified fine, posts financial security to reasonably ensure future compliance or abatement of the problem, or fulfills other requirements imposed as are appropriate under the circumstances. At the hearing witnesses shall be sworn prior to testifying. The strict rules of evidence shall not apply and the evidential rules and burden of proof shall be that which generally controls administrative hearings.
